
Resid And Heavy Oil Processing

the outlook for residual fuel production in 2020 - the outlook for residual fuel production in 2020 presented by john m. mayes platt's bunker & residual fuel oil conference june 25, 2015 international consulting practice since 1971 downstream focus; refinery/chemical engineers industry and financial clients publish various outlook and forecast products crude and refined products outlook refinery construction outlook world crude oil outlook ... **hydrocracking of heavy oil and residua - markit** - sr i c on su lti ng s i o s l n report no. 211b hydrocracking of heavy oil and residua by richard nielsen december 2008 a private report by the process economics program **tutorial on heavy oil conversion chemistry: the pna barrier** - 1 heavy oil conversion chemistry: part 1-the pna barrier 1.1 introduction it is well known that petroleum vacuum residu are difficult to convert into transportation fuels with delayed coking and ebullating-bed hydroconversion being the most common processes used. as a result, the impression is often conveyed that current resid processes are close to their maximum conversion, only because ... **new technology for heavy oil desulphurization and ...** - new technology for heavy oil desulphurization and upgrading "dsu" november 2014. field upgrading overview. technology development company based in calgary, canada focused on heavy oil desulphurization and upgrading core technologies based on oil industry experimental work paired with coorstek ceramic ionic conductor technology. fieldupgrading 2 coorstek staff and laboratory, utah ... **heavy oil conversion chemistry: part 2-how to improve ...** - 1 heavy oil conversion chemistry: part 2-how to improve upgrading processes 1.1 coking processes a coking process can be devised to improve liquid yield and to reduce coke and hydrocarbon gas yields **q upgrading - etx systems** - background crude oil contains both heavy ("resid") and light ("distillable") components increasing concentration of resid components makes crude oil "heavier" **heavy oil hydrotreating - markit** - heavy oil hydrotreating (december 2007) worldwide, the importance of hydrotreating heavy oils is growing in order to meet the demand for low sulfur, improved quality heavy fuel oils and feedstocks for fluid catalytic cracking (fcc), resid fcc and, lately, hydrocracking and coking. increasing production of higher sulfur and gravity crude oils, increasingly stringent sulfur and other ... **heavy oil upgrading by the separation and gasification of ...** - upgrading heavy oil - be it heavy crude oil in the oil field or heavy bottoms streams in the refinery - is an increasingly prevalent means of extracting maximum value from each barrel of oil produced. upgrading can convert marginal heavy crude oil into light, higher value crude, and can convert heavy, sour refinery bottoms into valuable transportation fuels. on the downside, most upgrading ... **heavy crude processing - world petroleum council** - heavy oil & oil sands -heavy crude quality -processing options for heavy crude • syn crude economic data • conclusions engineersindia . challenges facing refinery • process heavy, high sulphur cheaper feedstocks • bottom of the barrel processing to improve margins • improve fuels quality to meet new specifications • reduce emissions to meet environmental norms ... **bunker and residual fuel oil - platts** - resid values into fuel oil blending depend mostly on the relative amount of expensive cutter stock that must be downgraded to meet specification - oriente has the lowest viscosity in the sample ... **crude oil commodity map (effective august 1, 2018)** - crude oil commodity map (effective august 1, 2018) light synthetic psy ... heavy low resid cracked sss other pool name new pool - effective may 2014 existing pool segregated commodity - facilities as separate from other commodities and commingled as per table 5 spot commodity - demonstrates intermittent receipt disposition 1syn (synthetic sweet blend) is the pool name (transport ... **current situation of emerging technologies for upgrading ...** - current situation of emerging technologies for upgrading of heavy oils luis c. castaneda ~ *, José a.d. munoz, ~ jorge ancheyta instituto mexicano del petróleo, eje central lázaro cárdenas 152, col. san bartolo atepehuacan, méxico d.f. 07730, mexico a r t i c l e i n f o article history: received 17 january 2013 received in revised form 22 april 2013 accepted 27 may 2013 available ... **lecture 5 catalytic cracking: fluid catalytic cracking and ...** - heavy cycle oil (hco) optional heavy cycle oil product for fuel oil or cutter stock clarified oil (clo) or decant oil: slurry for fuel oil coke by-product consumed in the regenerator to provide the reactor heat demand fcc catalysts major breakthrough in the catalytic racking process was development zeolite catalysts which demonstrated vastly superior activity, gasoline selectivity, and ... **crude quality inc canadian crude quick reference guide** - superior: 33.0 0.17 - 0.14: 8.2 - "nd" indicates a value below the minimum detection limit results based on averages from jan. 1, 2011 to may 31, 2015 from crudemonitor, calculated on july 8, 2015
